Understanding the Value of Adult Learning

Summary of chat on 13th January 2009

Aron Elal: I'll be typing all the way, 'cause the sound just isn't working :(

Borja: Hello, I'm having problems with the microphone hope to solve before... XD

Borja: Sorry I could not solve the problem... I hear and if I need to say something I will chat... : (

Aron Elal: About the logos - I think the one with the gray background is the best.

Suvi: I agree with Aron :)

Bea: Hello, Happy New Year. I hope at least that you can read me, although I can't listen or speak

Aron Elal: The one with the globes are a bit messy

Aron Elal: flags are behind the ball

Aron Elal: UVAL text is also inside the globe

Aron Elal: What program is the the last logo made with?

Mika Heino: Hello Bea! Thanks for the Icons.

Bea: Mila says that you prefer it blue, it's ok

Mika Heino: What program did you use to make the icons?

Bea: cs3, photoshop

Mika Heino: I would like to send the icons to all others and get their opinion as well.

Suvi: If the logo is going to be the one with grey backround, will the whole backround of the bages be grey too?

Bea: which part should be in blue, just the UVAL letters or all the black part of it?

Mika Heino: Just UVAL, please.

Mika Heino: Or maybe all the text...

Bea: ok, I'll change it and then I'll send it to you, both versions with Uval and with the whole text

Bea: I'll try to send it to you today or tomorrow, depends on the time it takes me to do it, I'm not an expert on this photoshop thing

Mika Heino: OK

Suvi: Those logos were made with photoshop, right? I just like to know, is it Photoshop CS, CS2, CS3 or maybe an older model?

Mika: Borja, I have your email-address but I need your surname as well to get you an access to Moodle.

Borja: ok, Borja Miranda Antuña

Mika Heino: Thank You, Borja!;)

Mika Heino: Bea told that the logos are made with cs3

Suvi: then it´ll be ok :)
